

LV2 ART HOLIDAY WORK – please note this is part of your first assessment starting in September!

The theme 'Still Life' has interested and inspired artists, designers, and photographers for centuries. It has also been important in showing imagery of many cultures and moments in time.

STILL LIFE TASK

Before the start of your Art course, we want you to take photographs [phone is fine] based on the theme 'still-life'. You could find arrangements at home that catch your eye, but you could also collect and compose objects that you find interesting. We also want you to create a Pinterest board that reflects your interest in this theme. To help you do this we will suggest various Artists to look at, but to make it a personal response please feel free to add your own tastes and inspiration [mood board]. Then to improve your drawing skills do a series of small drawings based on your favourite photographs. It would also be useful to find a shoe box, or similar, and collect objects [manmade and/or natural] which could eventually be brought into college.
